

14 How Much Will It Cost?

Here's How

Pedro had a Giantburger and a milk for lunch. What was the total spent for lunch?

Look at the menu to find the facts. Add to find how much Pedro spent.

Add money the same way you add whole numbers.

$$\begin{array}{r}
 \blacktriangleright \ \$2.99 \quad \leftarrow \text{cost of the Giantburger} \\
 + 1.10 \quad \leftarrow \text{cost of the milk} \\
 \hline
 \$4.09 \quad \leftarrow \text{total spent on lunch}
 \end{array}$$

Pedro spent a total of **\$4.09** on lunch.

Try These

Use the menu above to solve these problems.

TIP
When you add or subtract money, keep the decimal points lined up. Be sure to include the \$ in your answer.

1. Julia ordered a Giantburger, and Stacy ordered a cheeseburger. How much did they spend?

$$\begin{array}{r}
 \$ \square . \square \square \quad \leftarrow \text{cost of the Giantburger} \\
 + \square . \square \square \quad \leftarrow \text{cost of the cheeseburger} \\
 \hline
 \$ \square . \square \square \quad \leftarrow \text{money spent}
 \end{array}$$

2. Melissa ordered a hamburger and french fries. How much did she spend?

Go Ahead

Use the menu in *Here's How* to solve problems 1 through 6.

Be sure to include \$ and . in your answers.

- 1. Carlita had french fries and a milk. How much did she spend?

2. Luis bought a hamburger. Oscar bought a Giantburger. How much did they spend in all?

3. Karen had a Giantburger. She also had french fries. How much did she spend?

4. Chang ordered a cheeseburger and milk. How much did he spend for lunch?

5. Angie bought a cheeseburger and Lisa bought a hamburger. How much did they spend?

6. Gustav bought a hamburger and milk. How much did Gustav's lunch cost?

Answer each question.

7. Carl bought a book for \$5.50, and an umbrella for \$7.23. How much did he spend in all?

8. Winton paid \$3.63 for a pad of paper, and \$1.27 for new pencils. How much did he spend?

TIP
Be sure to line up the decimal points.
